

Abdullah Ahsan

Full-Stack Web Developer | React.js | Node.js | JavaScript | REST APIs

Islamabad, Pakistan · abdullahahsan7799@gmail.com · linkedin.com/in/abdullahahsan-90a60641b · github.com/abdullahahsan5911

SUMMARY

Computer Science student and web developer focused on web application development and Node.js, with hands-on experience building applications using JavaScript, React.js, Node.js, REST APIs, Firebase, and modern web development tooling. Has contributed to web development projects at AlfaOrigin and earlier supported short-term projects at Data X Technologies.

SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS

Backend: Node.js, Express, REST APIs, FastAPI

Databases & Cache: MongoDB, PostgreSQL, Firebase, Redis

Other: Web Engineering, JWT Auth, Socket.io, Git/GitHub

EXPERIENCE

Web Developer — AlfaOrigin

Rawalpindi, Pakistan · July 2025 – September 2026

Web Developer — Data X Technologies

Islamabad, Pakistan · July 2026 – August 2026

- Built the Lead Ledger CRM scaffold: JWT auth with role-based access, a 9-stage sales pipeline with full status-history audit trail, and a Next.js/TypeScript dashboard with a drag-and-drop Kanban board.

PROJECTS

LocalSkillHub

React, Node.js/Express, MongoDB Atlas, Redis, Socket.io

Region-specific freelance marketplace combining geo-filtered discovery with a local trust and reputation system, an escrow-backed proposal-to-contract workflow, and real-time chat.

DataX — Lead Ledger

Next.js, TypeScript, FastAPI, PostgreSQL, Redis

MVP CRM scaffold for the DataX AI Business Automation Platform: role-aware auth, a 9-stage sales pipeline with audit trail, and a Kanban dashboard.

RentConnect

React, Node.js/Express, MongoDB Atlas, Redis, Socket.io

Peer-to-peer rental marketplace with identity verification, a trust score, demand-based dynamic pricing, and an escrow-backed booking workflow.

EDUCATION

Air University

Bachelor of Commerce, Computer Science · 2023
